

ACCESSIBILITY

OF ANTI-MICROBIAL RESISTANCE DIAGNOSIS IN INDIA

A Landscape Study

KALAM INSTITUTE OF HEALTH TECHNOLOGY

TABLE OF CONTENT

01. Executive Summary	03
02. Research Objective	03
03. Research Deliverable	03
04. Introduction	04
05. The Burden Of Anti-Microbial Resistance	05
06. Antimicrobial Resistance Diagnostics – Available Technology	06
07. Other Available Technologies	09
08. Diagnostic Methods Under Development	14
09. Emerging Technologies	16
10. Ongoing Research	18
11. Research	21
12. Recommendations	24
13. Appendix	27

TABLE

Table 1: Diagnostic Technology – Gram Positive Micro Organisms	08
Table 2: Diagnostic Technology – Gram Negative Micro Organisms	08
Table 3: Other Available Technologies	13
Table 4: Diagnostic Methods Under Development	15
Table 5: Emerging Technologies	17
Table 6: Ongoing Research	20

ABBREVIATIONS

AMR	Antimicrobial Resistance
MRSA	Methicillin-Resistant Staphylococcus Aureus
ECDC	European Centre For Disease Prevention And Control
HAI	Hospital Acquired Infection
EU	European Union
GDP	Gross Domestic Product
MDRO	Multidrug-Resistant Organisms
ICMR	Indian Council Of Medical Research
AIIMS	All India Institute Of Medical Sciences
HCAI	Health Care Associated Infection
(VRE	Vancomycin-Resistant Enterococci
NAATs	Nucleic Acid Amplification Tests
MALDI-TOF MS	Matrix Assisted Laser Desorption Ionisation Time-Of-Flight Mass Spectrometry
FISH	Fluorescence In Situ Hybridisation
POCT	Point-Of-Care Tests
NCBI	National Centre For Biotechnology Information
NIH	National Institute Of Health
EIA	Enzyme Immunoassays: Enzyme Immunoassay
UTI	Diagnosis Of Urinary Tract Infection
