Fever Alarm

Specifications

Measurement Object	Forehead, Surface, Room
Measurement Distance	1-10cm
Measurement Range	32-45C(89-120.2F)
Measurement accuracy	0.2-0.4(medical)
Resolution	0.1C

Operating Environment

Relative Humidity	15-85%
Operating Temperature	5-45C

Storage Environment

Storage Temperature	-20~ +55c
Relative Humidity	15~93%
